Known Issues

- IntelliSense security detections are supported in Visual Studio 2022 and 2026 for .cs , .ini , .xml , and .config file types but may not render consistently in .cshtml and .aspx files. In Visual Studio 2019, IntelliSense detections do not work for .aspx files.

Workaround: Use supported file types for IntelliSense, or rely on complete analysis of solution for .cshtml and .aspx files.
